

Kolling parents,

As part of keeping our building safe, you will notice some strong safety procedures in regard to building access for guests. Please take note of these procedures below. Thank you for your cooperation in keeping our building safe and preserving the learning environment of our students.

1. **Due to the current situation with COVID-19, we will be screening guests more strongly this year and assisting them as much as possible without allowing building access.** It is our goal to only allow building access to students, staff, and hired contractors until the COVID-19 situation improves.
2. **Only designated office and administrative staff will buzz guests into our building.** You may see staff members next to the buzzer system who are not allowing you access. Please understand that only staff members that are trained on entry procedures will be permitted to buzz guests in during the school day. There may be times that we only have 1 staff member available to assist someone waiting in the foyer, and that staff member may be with another individual, causing you to have to wait longer than usual. Please be patient and understand that we will assist you as quickly as possible.
3. **Office staff will use the intercom to question all visitors they are unfamiliar with or unsure of their reason for requesting entry into the building.** You may still be asked to state your business through the intercom system. If the office staff member is not completely certain of who you are or your business with our school, they will ask.
4. **All parents must use the table in the main foyer to leave items that need to be delivered in our building.** If you have questions or directions at the time you are dropping off items for delivery, our staff will communicate with you through the intercom. Parents will not be buzzed into the building simply to deliver items or give directions for the items you are leaving.
5. **Volunteers and building guest must respect the learning environment.** When we are able to allow volunteers again, if you have building access for any reason during the school day, please remember that learning is still taking place throughout the building and that teacher time is valuable. We need our guests to refrain from carrying on conversations in the hallways, stopping teachers to have private conversations, or accessing any area of the building besides where you are directed to be. If you need to speak with a teacher, please contact him/her to schedule a time to meet.

These procedures will be strictly enforced in order to assure the safety of our children, staff, and other building guests. Our tight safety procedures are preventative measures. We value our relationship with parents and community members greatly, and this is not an attempt to be unwelcoming, or distance Kolling staff from Kolling parents. We thank you for your cooperation and support in keeping our building safe and minimizing interruptions to the education of our students.
